

Here's a fun Halloween trick you can try at home and see if the "Spirit of Halloween" can read your mind!

Step 1: Cut or tear along the dotted lines.

Step 2: Put your finger on one of the pictures.

Step 3: Spell name of the picture you are touching, jumping one picture to the left OR right for each letter. If run into an end, you need to go back the other direction. For example, if you are touching the cat, you would spell C-A-T, jumping one space per letter (do not count the space you are starting on).

Step 4: Remember the picture you are touching, then rip off the PUMPKIN and CAT off the sheet of paper and throw them away. They aren't the ones you were touching and we won't use them anymore.

Step 5: Put your finger on the Halloween image that your finger ended on after spelling the name of first picture.

Step 6: Spell the word "Halloween", once again jumping one picture to the right or left for each letter on the remaining three pictures.

Step 7: Remember the picture you are touching. Rip off the other two off the sheet of paper and throw them away, leaving just the one you touched last.

Step 8: Scan the QR code to see the Spirit of Halloween can read your mind and tell which picture is left!

Happy HALLOWEEN

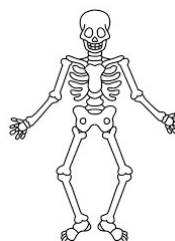

PUMPKIN

CANDLE

GHOST

SKELETON

CAT
